EXTRICATOR

140505002 CHIN GUARD

140505003 PILLOW

The spinal immobilizer "MED PED" is ideal for immobilization and extraction of a patient stuck in difficult emergency situations such as road accidents.

Thanks to its shape and its enveloping structure, it allows you to lock vertically and horizontally the head and spine to minimize all the traumas that may result from an incorrect movement of the patient.

It features colorful buckles and belts for easy use, a padded pad and two tear-off straps for the forehead and chin. It comes complete with carrying case.
