TEC01957 TRANSFER SHEET 70 CM X 50 CM

The Transfer Systems are designed to facilitate the manual handling of patients through pushing, sliding and sliding movements. They are designed for use in hospitals, nursing homes and health/care facilities and for home care.

The SHEET slide sheet is designed to facilitate the placement of bedridden patients. We recommend the simultaneous use of two SHEETS: one larger in contact with the mattress and one smaller in contact with the patient, so that they can slide on each other. Through the numerous handles on three sides, operators can move the patient in all directions with ease.

MAINTENANCE AND CLEANING

- MAX WASHING: 60°C
- DO NOT IRON
- NOT DRYING BY DRUM
- NO DRY CLEANING

CONSERVATION AND DISPOSAL

- RECOMMEND USE TO A SINGLE USER.
- KEEP AWAY FROM OPEN FLAMES AND SOURCES OF HEAT
- DISPOSE OF THE WASTE DISPOSAL IN COMPLIANCE WITH CURRENT REGULATIONS ON ENVIRONMENTAL PROTECTION AND SEPARATE COLLECTION
