PRODUCT CODE

290306648 TRANSFER AXIS BANANA BOARD

The BANANA BOARD sliding lath is a valuable aid for transfers of people with limited mobility and strength. It is ideal for overcoming minimal differences in height; it is used for transfers to/from the car, bed, pram, toilet.

The central handle facilitates transport, in the lower part there are two non-slip plates to ensure maximum safety in transfer.

The Transfer Systems are designed to facilitate the operations of manual handling of space through pushing, traction, sliding and sliding manoeuvres. They are designed for use in hospitals, nursing homes and healthcare facilities and for home care.
