Modified by the Directive 2007/47/CEE

PRODUCT CODE:

TEC07208

Evacuation chair equipped with 2 wide self-braking tracks to allow the patient to quickly but safely descend.

The chair is equipped with 4 wheels, including 2 swivel to allow it to be used as a sedan. The chair has two front telescopic handles to ease the lifting operation.

The soft seat and the headrest ensure maximum patient comfort. The chair is easily foldable and stowed in the compartment of emergency vehicles, in trunk of the car or it is possible to attach it to the wall through the supports (optional) LG EVACU PLUS evacuation chair can be used on stairs with a slope between 28° and 39°.

The path on stairs can be approached only by people who received a specific training both theoretical and practical. In addition the driver must approach the downhill stairs with a possible constant speed.
