

HUM AEROCASE BAG FOR BLOOD SAMPLES

TECHNICAL CHARACTERISTICS

DIMENSIONS

HEIGHT:	25 CM
WIDTH :	43 CM
DEPTH:	27 CM
VOLUME:	18 LT
WEIGHT:	1 KG

Bag for blood samples produced in Extreme material. The bag is finished with neon yellow stripes while concerning the inside, the bag is organized in compartments helping storing all the accessories in safety.

The main compartments, the deepest one, is equipped with 2 removable dividers. They can be removed by using the velcro stripes, so that to have a maximum of 3 compartments all divided and from one side there are 11 elastics.

Inside the "opening door" there are a series of elastics to house medical devices, a pocket with hinge closure that can contain further material. On the outside the bag has further 3 storage pockets with hinge closure. Above outside the opening door there is a transparent window with hinge closure where to insert writings, logos and prints to customize the device.

In addition, there is a large velcro stripe to apply personal identification writings.

The backpack is equipped with 4 reflective stripes that guarantee an excellent visibility: also it is equipped with a couple of handles up above for the hand carry and a practical shoulder strap that is removable through plastic hooks.

The base is in sturdy waterproof material and stable pyramidal plastic feet..
