

## DISPOSABLE STERILE DICOSULIN SYRINGE WITH 1ML NEEDLE

### TECHNICAL CHARACTERISTICS

**PACKAGING:**  
PACK OF 100PCS

### PRODUCT CODE

TEC07959 DISPOSABLE STERILE  
DICOSULIN SYRINGE WITH 1ML NEEDLE

3-piece syringe for intravenous, intramuscular and hypodermic injections. Used for insulin injections, with non-integrated needle (0.4x13mm), with transparent polypropylene stem that allows a perfect display of the contents.

Closure in the form of a double ring on the plug of the plunger located on the top of the plunger, fluid flow of the piston thanks to the rubber seal.

Limiting flange that ensures against accidental removal of the piston. The special design of the plunger cap reduces the residual volume of the drug/liquid.

The clear black graduation is legible and permanent and facilitates dosing, syringe name and manufacturer's logo placed on the tank.

The contrasting orange plunger for the U-100 syringe, the red one for the U-40 syringe. Disposable device, not pyrogenic, non-toxic and latex free. Without DEHP.

Product sterilized with ethylene oxide and the shelf life is 5 years
