FREE , STERILIZED WITH ETHYLENE OXIDE

CODICE PRODOTTO

TEC07962 DICONEX SN DECENTRALIZED
DISPOSABLE STERILE
SYRINGE WITH 10 ML NEEDLE ML LUER

3-piece syringe for subcutaneous, intramuscular and intravenous infusions. Intended for the preparation and administration of medicines/fluids to the patient and the collection of samples of body fluids from the patient.

The transparent stem allows full visual control of the contents, and contrasting green plunger. Luer nozzle centrally positioned for 2 ml capacity, eccentric for 5, 10, 20, 50 ml capacity. Seal in the form of a double ring on the plug of the plunger located on the top of the same.

Allows the piston to flow smoothly thanks to the rubber seal; limiting flange that protects against accidental piston removal.

Clear, legible and permanent black graduation makes dosing easier, properly:

- every 0,1 ml for 2 ml capacity
- every 0,2 ml for 5 ml capacity (extended to 6 ml)
- every 0,2 ml for 10 ml capacity
- every 0,5 ml for 20 ml capacity
- every 1 ml for 50 ml capacity

The needle tube is made of smooth and durable stainless steel and the needle tip is sharpened on three surfaces.

The shelf life of the product is 5 years.
