The Emergency Cervical Collar "Fast Collar" is the new adjustable collar in different heights. Ideal tools for those who want to have, with a single item, different possibilities of immobilization.

It has a central hole for the control of the trachea and the execution of a tracheotomy. It was developed for use in the medical emergency and the flat design characterized by just one piece allows an efficient placement in limited spaces.

It's translucent, latex free.

Non-sterile, single-use, disposable.

INTENDED USE

Immobilization of the cervical spine, minimizes the flexed extension.

STORAGE

Store in a dry place, away from sunlight, sources of heat and dust.

The product does not expire, but the expected service life is 10 years for the materials and components of the device.

TO WASH

- It is possible to wash in water at 30 °C with neutral soap or detergent
- Rinse well
- Do not wring out
- Allow to dry horizontally
- Do not iron
