

## SAM PELVIC SLING II

### TECHNICAL CHARACTERISTICS

#### DIMENSIONS

MEDIUM SIZE 81-127 CM  
LARGE SIZE 1-137 CM

The belt for pelvic stabilization is a medical device useful to reduce resolutely the loss of blood in a patient with pelvic trauma.

The highlight of this system is its simple and practical use.

The belt is equipped with a safe system which automatically activates when the tension imprinted on the pelvis is too high preventing the worsening of the situation. It is totally radiolucent and it can also be used in the diagnostic department allowing him to be evaluated in stable conditions.
