PRODUCT CODE

TEC07129 PEDIATRIC HEAD IMMOBILIZER

Radiolucent head immobilizer.

Large lateral support pads have cut-outs at the ear level that allow direct access to the patient's ears for communication and diagnosis.

The lateral support pads are securely attached to the base via velcro straps, allowing for quick stabilization of the patient.

The headrest thanks to this system can be removed and refitted easily minimizing the risk of movement and is not affected by rain or temperature.

The straps, base and head pads are coated in NBR for fast and thorough disinfection.

The unit comes with base, two lateral support pads and head and chin straps.

ACCESSORIES INCLUDED

- NBR coating
- PVC padded
- 2 head fasteners with ear holes
- 2 Velcro straps for patient immobilization
