MEDICAL DEVICE CLASS : IIA
ACCORDING TO ANNEX IX OF THE
DIRECTIVE 93/42/EEC
CND: A01010101
RDM: 1946487

PRODUCT CODE

TEC08154 DISPOFINE INJECTION NEEDLE
23 G (0.6 MM x 40 MM) **DEEP BLUE COLOR**

Device designed for intravenous, intramuscular and hypodermic injections. The needle tube is made of smooth and durable stainless steel, and the sheath and hub are made of polypropylene.

The thin walls ensure the proper flow rate, and the tip is triple sharpened. The surface of the needle tube is covered by a sliding agent (silicone) and the needle elements glued to prevent their separation.

The hubs are colored according to the ISO code that allows the rapid recognition of the needle size.

It's a non-toxic, nonpyrogenic product, the shelf life of the needle is five years.
