SPARE PARTS:

TEC04219 FLAP WITH LARGE
ELASTIC MESH POCKET
TEC08288 FLAP WITH TWO
ELASTIC MESH POCKETS

Trousse Plus Tecnoflife made in Extreme material.

The bag has a zipper that runs around its whole perimeter and eases the opening of the bag in emergency situations.

Inside there are two flaps: one on the upper side consists of a single storage pocket, while the second, is located at the bottom of the bag and consists of two pockets for a better division of the material.

Removable, modifiable and repairable flaps as needed.

In the front of the bag there is a handle to carry it by hand while on the back there is a female velcro strip to make it stick in the rescuer's backpack.
